For your information we would like to draw your attention to the following investment warnings:

The price of shares and investments and the income derived from them can go down as well as up, and investors may not get back the amount they invested. The spread between the bid and offer prices of securities can be significant in volatile market conditions, especially for smaller companies. Realisation of small investments may be relatively costly.

On conflict of interest such interest may arise from the receipt of advertising income, commissions based on business introduced, payment for enhanced publication presence, holding of positions etc.
